EX-GOV. JOHN BAKER

TESTIFIES IN

PARKER RANCH CASE

Col. John Baker was the first witness in the Parker Ranch case today, having been called by the Low side. Magoon questioned him about cattle chutes. Baker said he thought chutes were a very proper appliance. He had seen them on Maui and at Horner's ranch and had had one constructed on his own ranch on the Hilo side of Mauna Kea prior to 1900. Said that he had seen them in various other places. Chutes were beneficial because they lessened labor, time and expense. Furthermore, it prevented injuries to cattle. Baker had seen four chutes on the Parker ranch. He was not very well acquainted with the entire ranch. Magoon asked the witness if he thought it would be proper to have chutes in the Puupee paddock. Kinney objected. There were a whole lot of things which would be proper and good. The question was whether neglect had been shown or not by Carter. Magoon said he proposed to show that appliances to handle cattle were of the first importance on a ranch, and a manager who did not provide them was neglectful. The Court allowed the question and Kinney noted an exception.

Baker said if he had cattle there he would build a chute, in order to save labor and expense. He had seen much cows and horses in this Puupee paddock. He thought that a chute should be built there. The question of cattle diseases on the Parker ranch was next entered into in great detail. The conditions of the H pond were described. Baker said the cattle waded in the pond in large numbers. "With what effect?" asked Magoon. "They get their stomachs full of water," said the witness. On being further questioned he said that the cattle polluted the water. Baker had also seen dead cattle lying around. In cases where the animals were recently dead he notified Carter; otherwise he did not. Dead animals, which were found some considerable

time after their death, were left to decay. "And what becomes of the carcass?" asked Magoon. "Well, dust to dust," answered the witness. Baker also said he had seen one dead horse and three or four dead cows in the H pond.

NEW BARGE FOR STATION

The local naval station will soon be supplied with a water-barge sent from the coast. A letter containing memorandum of gear for the barge has been received from the Bureau of Equipment and it is supposed that the barge itself will soon follow. A Coast paper states that the barge was one built to be used at Guam, but will be sent to Honolulu instead. It is of 100,000 gallons capacity, and will be towed here from Mare Island. It will probably be moored, according to the Coast paper, at Pearl Harbor. The new barge will greatly facilitate the supplying of naval vessels with water, etc.

MUST HURSTLE TO GET SHRINERS.

(Continued from Page 1.) Angeles has voted \$50,000 to entertain the Shriners and the Shriners of that city will spend \$100,000. There will be a grand floral festa and a magnificent electric festa. As soon as Los Angeles was agreed on, we wired the news from Niagara and in a little while we got word back that they had already begun to plant flowers in vacant lots for the great day next year. Los Angeles will literally 'throw herself' on this convention.

"I suggested the pilgrimage to Honolulu when the Los Angeles delegates should be complete and the idea was received most enthusiastically." The souvenirs of Hawaii taken to Niagara by Dr. Grossman, Hilma Iola, created a roar of delight. Everybody wanted one. Grossman gave away a thousand and was made to promise that he would send back several hundred more. Every Temple had some form of souvenir but Hawaii's souvenir caught the main applause. Just before Grossman left San Francisco the Shriners there banqueted him and presented him with several tokens of friendship, among which is a fine copper tankard appropriately inscribed.

"We want to get ready right away," said Grossman today, "to get the Shriners to Honolulu next year. We should start in by sending out a lot of literature and by arranging with the steamship companies for reduced rates. One hundred dollars for the round trip would be a fair proposition, I think."

A special train went out of San Francisco with a merry crowd of Mystic Shriners aboard, Dr. M. E. Grossman, Illustrious Potentate of Aloha Temple, Hawaii, being a guest of Islin Temple, San Francisco. There were 130 in the crowd from the Golden Gate and this bunch was swelled by the Los Angeles contingent, all Malakiah Temple Mystics. One day was spent in the Grand Canyon, Arizona. At Albuquerque the local Shriners entertained the caravan in great style. Of course there were great doings in Chicago. Eight days sufficed for the overland journey. The special train, says Grossman, was the finest thing of its kind that ever flew over the rails. Pacific Coast Passenger Agent Gregory of the Santa Fe conducted the train and Potentate Flimer of Islin Temple, San Francisco, was in charge of the pilgrims. Denver was one of the stops made, several hours being enjoyed there. At Colorado Springs a whole day was spent and Pike's Park was taken in. When Niagara Falls ended the journey there was a glorious round of receptions and banquets and "doings."
